

Markup *Insight*

WHY ARE YOU NOT ALREADY USING MARKUPINSIGHT™?

The software market is saturated with many products that are standalone PDF mark-up tools. But the use of these types of tool in an integrated and connected business environment has quickly become limited. Ticodi MarkupInsight is a new generation tool that delivers the integrated platform crucial for driving quick decisions in the connected, fast-moving businesses of today.

Ticodi understands the role of disruptive software within a business that demands both competitive benefits and an edge on their competition. Ticodi has developed a completely original solution delivering a combined, intuitive and powerful mark-up tool, that is seamlessly unified within a secure and fully scalable document workflow management solution.

MarkupInsight dramatically streamlines any existing office document review process. Homeworkers, satellite office teams and individual staff can now seamlessly co-ordinate their activities to synchronize, manage, edit and audit any document workflow with the speed and efficiency demanded to survive in a rapidly changing world.

Featuring Ticodi's custom scalable and fully editable document circulation system, instantaneously propagates your project documents to selected project team members. MarkupInsight allows for the modification of the user interface for any business, project or team requirements. MarkupInsight totally eliminates the need for any manual distribution and tracking of documents, whilst ensuring every documents comments and mark-ups are collated within a centrally managed environment.

MarkupInsight allows for the concurrent review and mark-up of documents with real-time visibility of all comments and alterations. This allows the saving of countless hours of wasted effort that can often result from miscommunication, lost emails and unforeseen human errors. MarkupInsight dramatically improves project team collaboration, decision making and efficiency whilst ensuring 100% accountability.

Use MarkupInsight to centralize your documents to identify exactly which ones require your team's attention. Flag overdue documents sent for comment and identify who has digitally actioned any alterations. Ticodi MarkupInsight allows your business to proactively manage these tasks with ease and brings even more other capabilities.

Not only does MarkupInsight handle your company's entire document review process, digital signatures and unforeseen human errors, it totally removes the need for any paper documents. This is crucial in allowing a business to manage both its cost and asset base.

AT A GLANCE

“ the complete solution to managing your project document circulation, mark-up and digital signature problems. ”

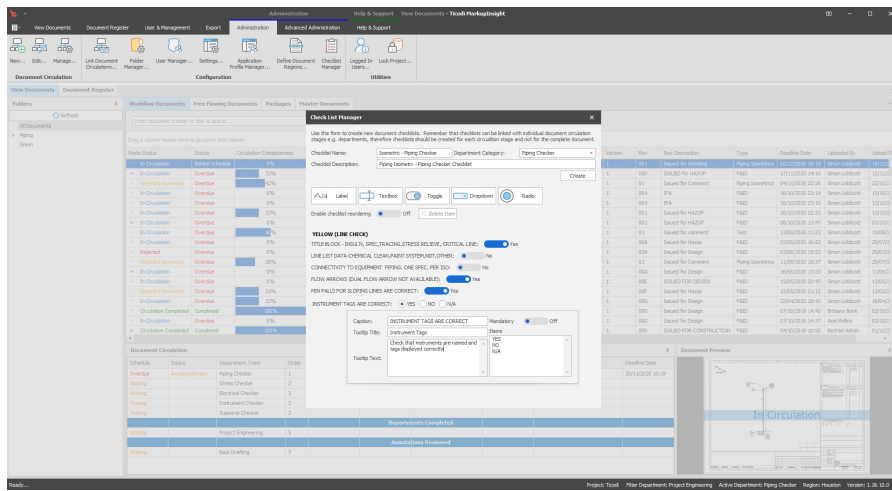

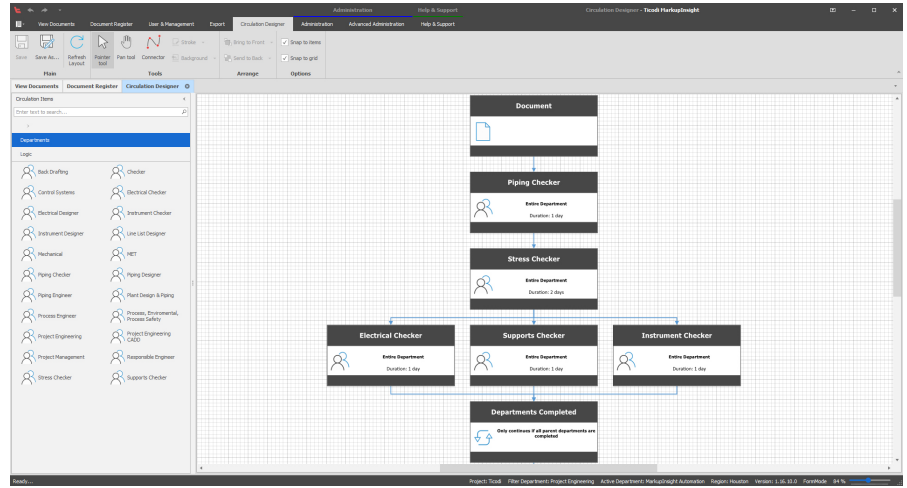

Key Features

DOCUMENT CIRCULATION

Document workflows automatically circulate the file to project teams specified within your workflow. With our easy to use and intuitive designer you can create unique custom document circulations in a matter of minutes. Specifying duration in days that each team has to review the document allows MarkupInsight™ to automatically calculate review completion dates.

FEATURES

- Easy to use drag and drop UI
- Complex workflow created in minutes
- Automatically circulate documents electronically

DOCUMENT CHECKLISTS

The checklist within MarkupInsight ensures that before a project team can complete a document review that they have completed all relevant checks on their project team checklist. This ensures consistency when checking a document and reduces rework when items are overlooked.

FEATURES

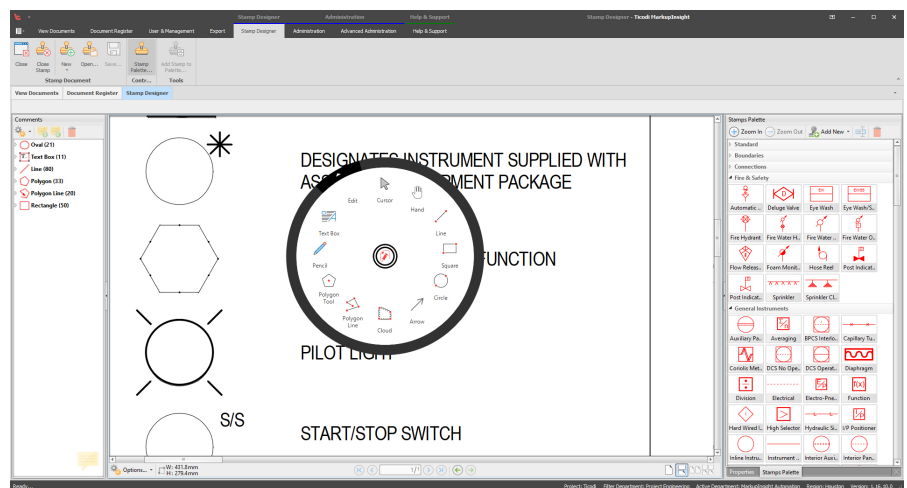

- Fully customisable checklists
- Link checklists to project team on a document circulation
- Individual document checklist history retained for auditability

SYMBOL & STAMP DESIGNER

Create symbols and stamps quickly and easily using our custom Stamp Designer. Simply draw over any PDF document graphics using our snap and trace feature and save to your project or company library. Provides rapid payback for company review end users by simple, drag and drop functionality.

FEATURES

- Share symbol and stamp libraries between MarkupInsight projects.
- Symbols and stamps automatically changed to reflect active document mark-up colour.
